WELCOME TO TRIPLE PLAY

We are pleased to introduce ourselves as the leading Triple play (FTTH) Service provider Company through GPON Technology (Fiber To The Home) our company known as “Digital Cable Broadband P Ltd” providing services like Digital Cable TV, IPTV, Basic Telephone, High speed internet and VoIP in Andhrapradesh , Karnataka and some of other Cities of Andhrapradesh and also Karnataka India.

We are the first one who starts Fiber to the Home in India with GPON technology. This is the world’s best technology to provide Triple play (Voice, Video, and Data) services. This is an neutral network in which it can carry any numbers of services and service providers at the same time like any number of basic telephone and data service providers like Airtel, BSNL, Reliance and TATA. For providing 1 Gigabit connectivity (Bandwidth) to the subscribers no one match this technology through fiber.

We have complete expertise to provide complete Digital Cable TV, IP TV, Telephone and Internet services. We already have in place the best technology FTTH (Fiber to the Home) with GPON Technology available today to meet not only the demands of today but up-graded demands of the future Keeping in mind the fast paced technical up- gradations in the Telecom industry after introduction of Broadband Technology, we are already fully equipped to meet all futuristic requirement of our customers like:-

Digital Cable TV (CTV)

Basic cable TV with 170 and more Digital channels having Digital Quality. We have already installed Hyderabad 1st Digital Head-end and would be in a position to provide better quality then DTH also. Value added services – Such as shopping on the, Video coverage of events, live or recoded play back of events etc

HIGH SPEED INTERNET SERVICES

This facility is available to our subscribers who would be in a position to access internet bandwidth .They would not need to an additional service provider for Internet accessibility. We have several post/pre paid packages of 4 MB to 20 Mbps and with several service providers for the subscriber to choose from. For Internet we tie-ups with TATA, Airtel, BSNL, Reliance.

Telephone / VOIP Services

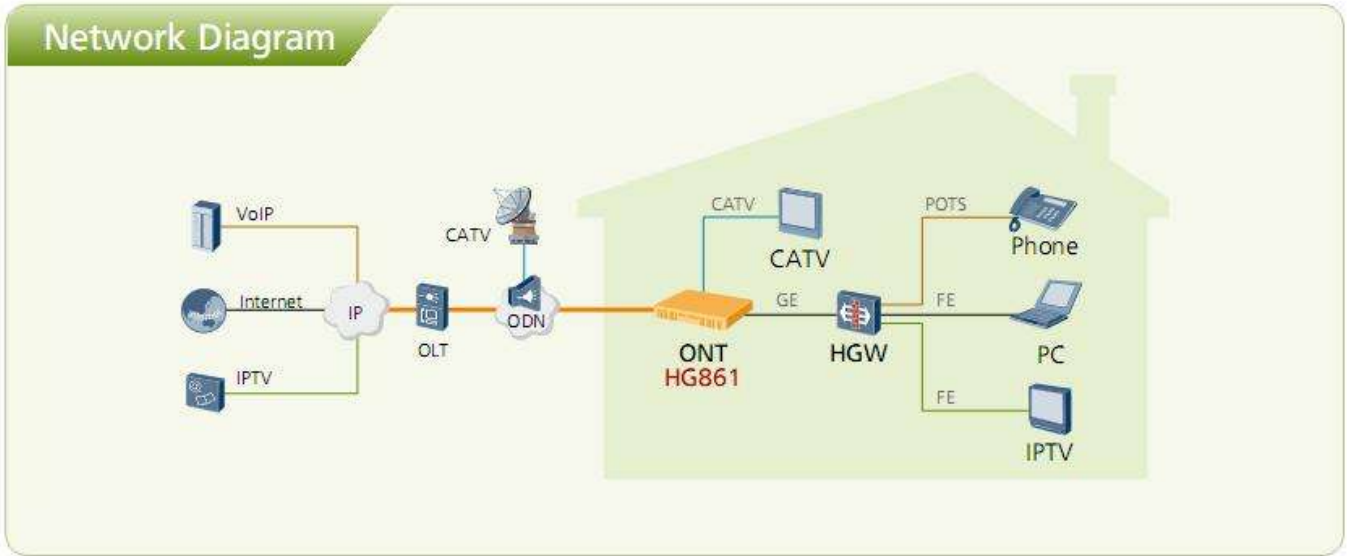

With this VoIP services you can make international call in very cheap rates.

Each flat need only one single core fiber connection to deliver

All the communications needs it is better than Copper Connection

Dear Sir,

We are happy to inform that we are connecting all the Users with Triple-Play Network (IPV6 / GPON Technology)

A triple-play network is one in which voice; video and data are all provided in a single access subscription. The most common applications are Telephony, community antenna television (CATV) and high-speed Internet service. The transmission medium may be fiber optic, conventional cable ("copper"). Triple-Play Networks.

Call or SMS 9010 919293 Mail ID vkr@digitalcablenet.com

Intercom connectivity in every apartment and gated community

High redundancy for internet and multi-technology approach to ensure minimal downtime

Benefits to the Builder

Single service provider for all the telecom services

Cabling for all telecom services

TV Cable RG 6 , Optical Fiber to The Flat ,

CCTV Surveillance, TATA SKY DTH, Intercom Equipment.

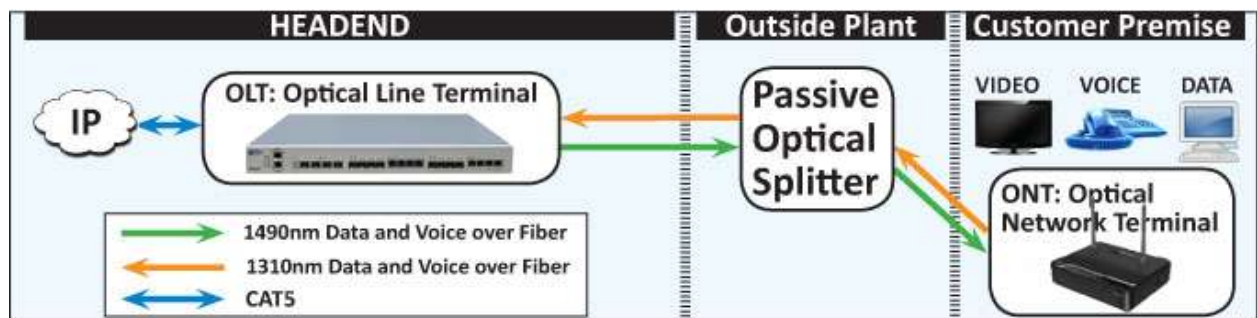

Triple Play Services - Smart Building Solution

Digital Fiber Net offering a new Technology, Fiber to the Home (FTTH) is a unique technology being deployed by Digital Fiber Net for the first time in Hyderabad. The fiber connectivity having unlimited Services like **bandwidth (Data)**, **Television (Video)**, **Telephone Services (Voice)** and **Intercom** offer to corporate, Gated communities, Apartments, Villas, the best of services.

It provides a comprehensive solution for the Corporate, Gated Communities leased line, internet, MPLS-VPN, VoIP, video conferencing, video calls etc whatever the services available on the internet platform, Customer will get power back unit having full load backup of four hours and normal backup of 2 days.

Digital Fiber Net accelerates the standard of living in communities by seamlessly integrating diverse communication devices that includes data, audio-visual channels and CC cameras with the use of cutting-edge technology.

Enabling a single window delivery of multiple services, Digital Fiber Net provides direct fiber internet to your home. Every home in the community can now enjoy easy interaction of diverse communication

Smart Building Solution features for Communities:

The core values of Digital Fiber Net revolve around the fact that every business is in the people business. Employees are people, suppliers are people, customers are people, partners are people etc. We are all in the business of managing people.

This will succeed and grow only if it means well for all in the system and all in the value chain treat each other and deal with each other on a win-win principle. Based on this philosophy the core values of Digital Fiber Net are

Transform your home into a smart home with Digital Fiber Net

Network Architecture

The technology offers complete telecom solution like Voice, Data & TV at the same time giving wide range of flexibility for customers with Intercom

E1R2 will be taken up from the different operators/sources like BSNL/AIRTEL/TATA so as to ensure minimum two or three of the operators thus ensuring service redundancy.

**CATV shall comprise of set-top box and operators would be Hathway / TATA Sky / Airtel / Reliance
Guaranteed 99.5% uptime**

DIC Fail Proof Architecture
